

What is creativity?

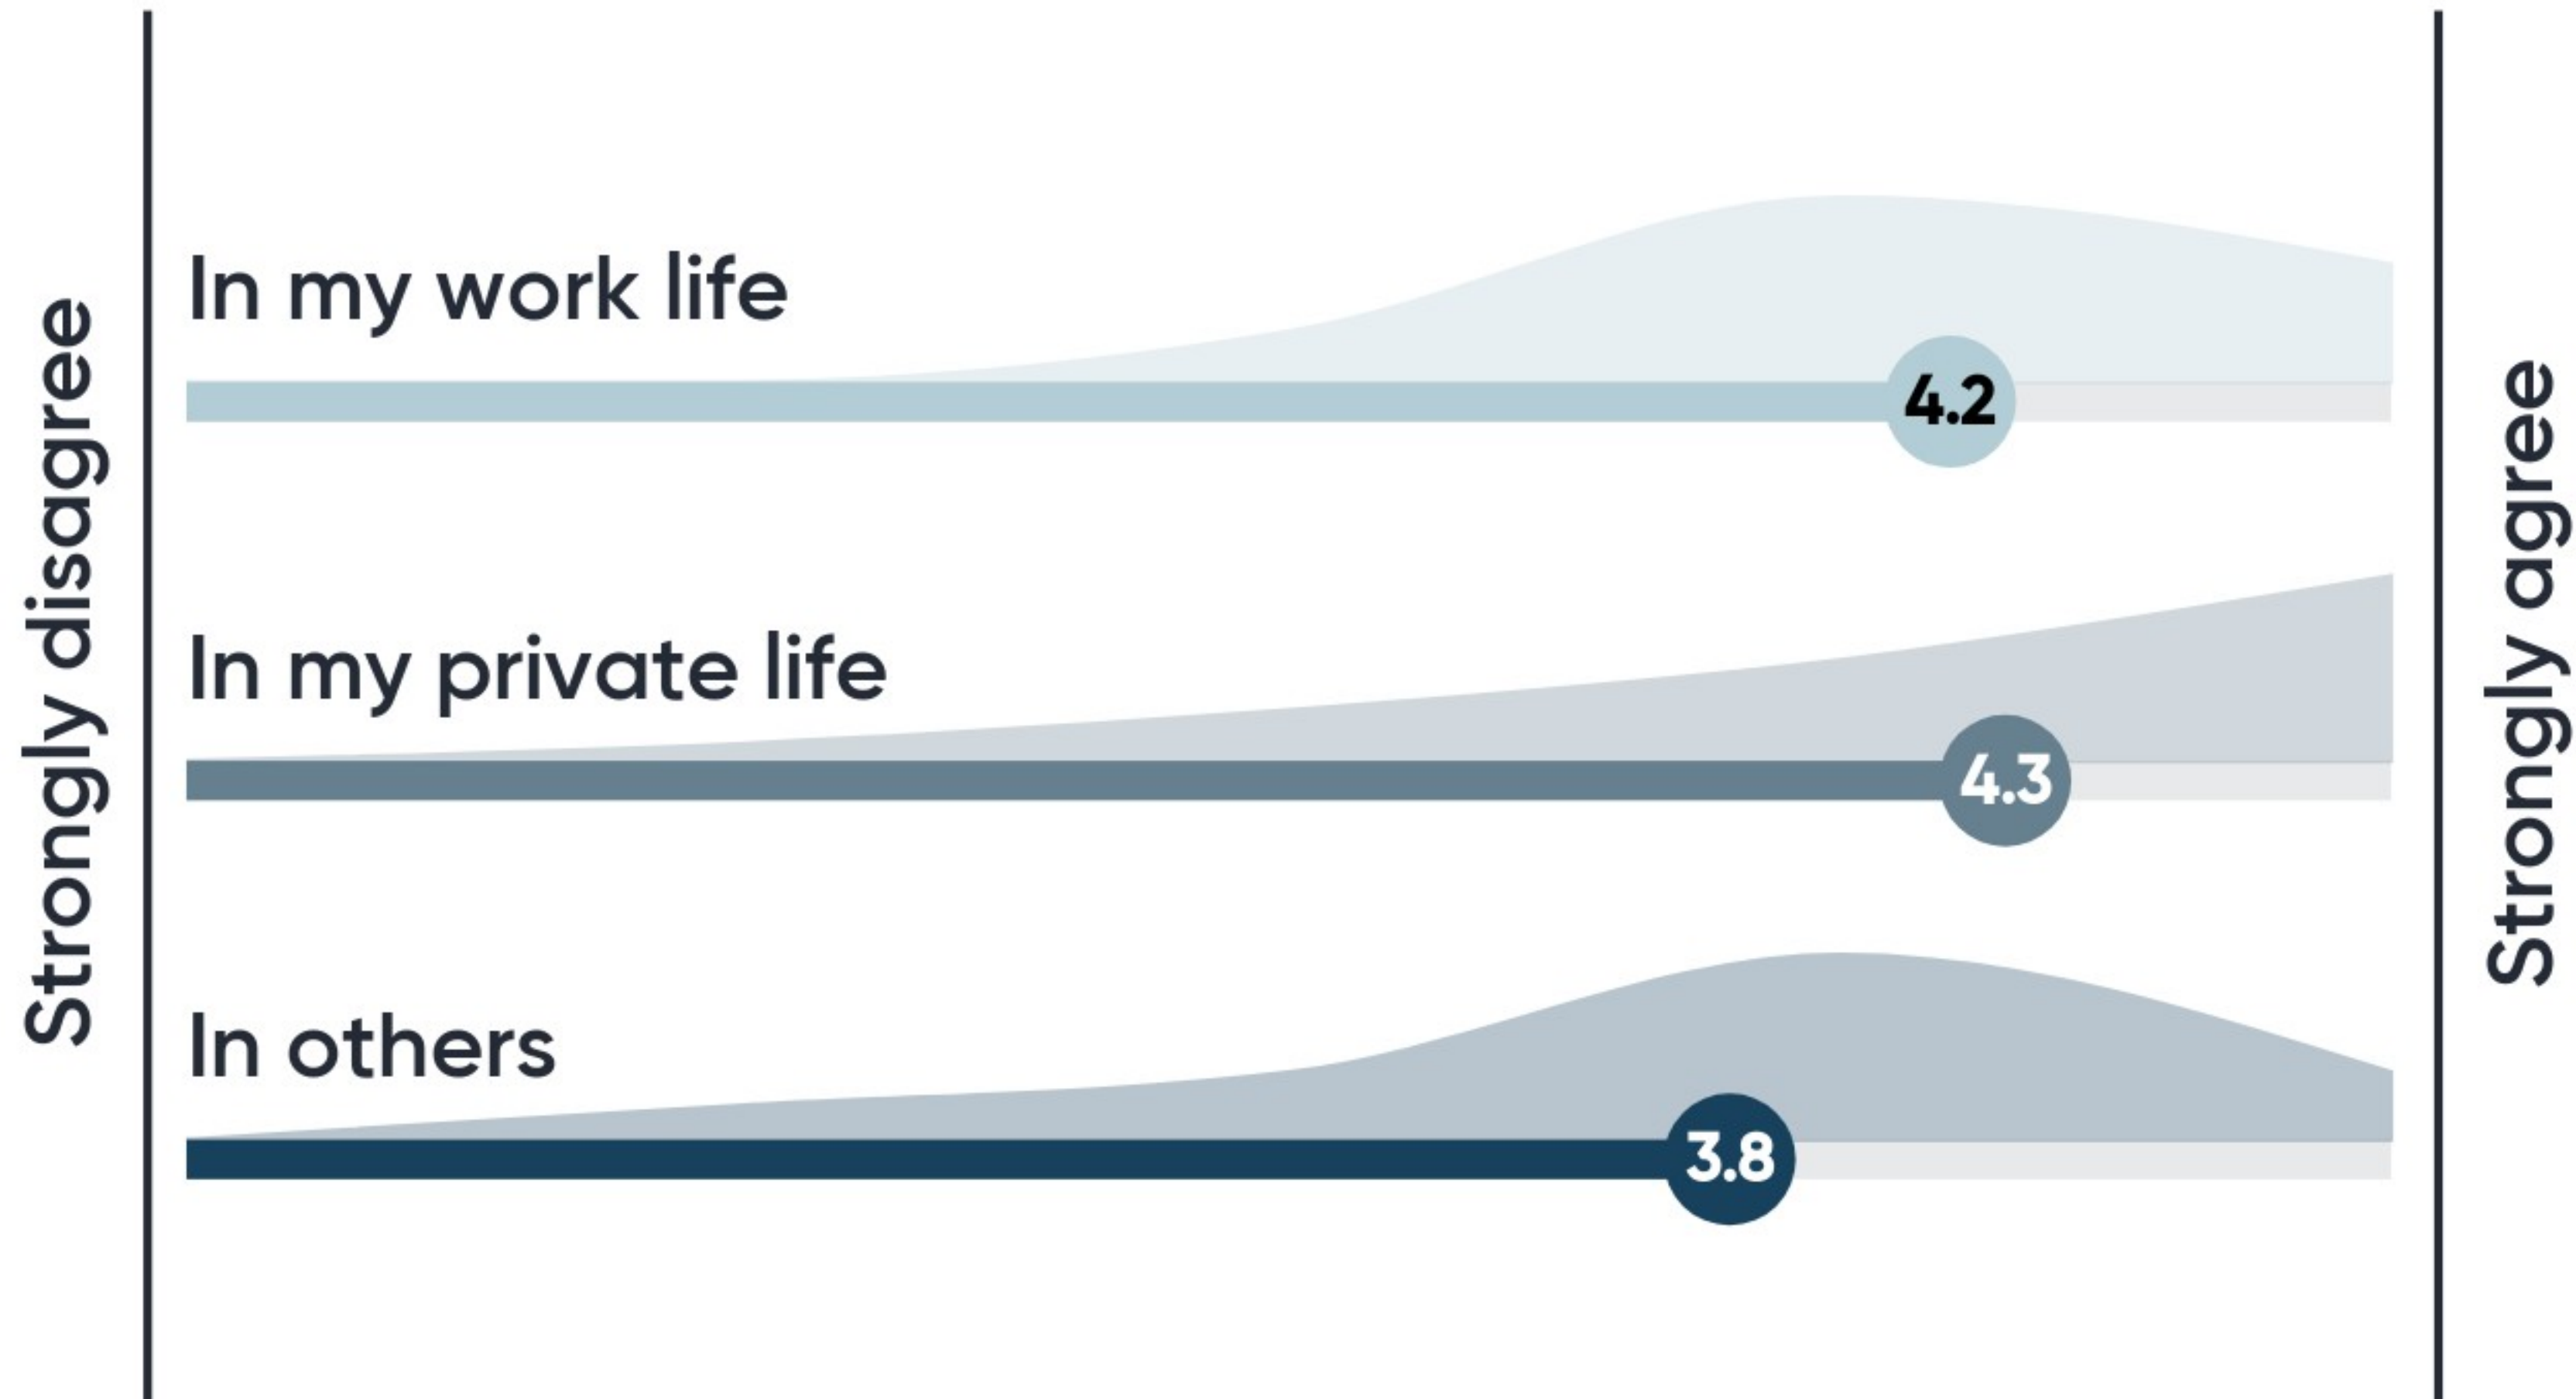

What do you think?

Are you creative?

I value creativity

What is creativity?

idea generation
using imagination
connect disparate ideas
out of the box thinking
ideation
problem solving
skill
creation
innovative
innovation art
fun
inspiration
novelty
freedom
explorative
thought
unexpected views
curiosity
a resource
coping
imagination
curiosity
a skill
out of the box
a part of human nature
problemsolving
a waking dream

What did you do the last time you did something creative in your day-to-day life?

Test

wrote music

Shower

Last Sunday I made a short animation for the first time

Listening to music

I painted on a canvas last week

Listening to music

Planned and filmed a stop motion video

Listening to music

What did you do the last time you did something creative in your day-to-day life?

Listening to music

Before class I drew something in my notes

Brainstormed, conceptualized, and Apple-ID flavour combinations for pizza toppings.

For Halloween at home we made halloween-themed food. Mummified sausages, spooky soup with eyeballs in it, that kind of thing

Started a project in GameMaker studio 2

Worked on courses on the courses in the previous study period.

Finding a cheap way for going from Gothenburg all the way to Cologne.

Decorated my apartment

Brainstorming different solutions to a problem at work

What did you do the last time you did something creative in your day-to-day life?

Draw

Coded

Jammed on my guitar

Cleared my mind with some breathing and visualisation, calmed my mind and let the ideas flow.

I cooked food using the ingredients I had at home without buying anything new

Painting and drawing on a drawing tablet

Blender

I figured out a interesting game mechanic interaction in a game.

The New and Amazing Pinball Machine

Its a console version of a pinball machine, that you can play on the couch. Its also a rhythm-based game, so you have to sync your actions with the music.

"the ice cube", whenever you hit the ice cube, the song "\$100 Dollar Bill Y'all" plays, by ice cube, and you receive 100points.

Attribute : Fabric -> Varying resistances on playing field, ball roles at different speeds

Cup holder

Pinball machine that gives different amounts of fast food as rewards depending on the player's score.

Brocoli, a vegetable themed pinball with brocoli as the main villainas the bumpers and stuff only carrots and peas to help you in your trubbles.

A choose your own adventure type pinball machine where you input choices with the flipper buttons while still managing the ball

Public Square Pinball, play by sidewalk triggers. Virtual ball/plungers using spotlights.

Pinball on a platform where you have additional controls that move the floor itself. You're encouraged to tilt for points. Players are strapped into an American-Gladiators-style harness for their safety.

The New and Amazing Pinball Machine

A keychain: You could use the loop as an obstacle that the ball needs to jump through and the keys could also be used as obstacles to move the ball in certain directions.

Pinball you play ON the floor. Like football, but with a lot of extra steps. Slightly dangerous. WE are the paddles

(Sailboat) A floating pinball machine where you are the ball

A windable launch mechanism for the ball, pulled by hand which adds spin and speed

shovel:gravedigger!

Octagon shaped pinball machine with four players vs each other

A Pinball Machine in which you have a mirror so you can check yourself after each game while also having a thermostat built in so you can play even in cold atmospheres.

A pinball game... but it's in the passenger seat of a car

"the couch", whenever you hit the couch, the ball stops and you loose, it, it simply gives in to the comfort of the couch and takes a nap instead of continuing

The New and Amazing Pinball Machine

Uneven pinball surface to change the dynamic of the game. Or different textures. These change the pinball dynamics

Two player pinball on a ship - one player steers the ship, causing issues for the person playing pinball.
Affects the machine with tilt and motion

VR or AR using glasses, the player plays the game by seeing through the glasses. Another idea is pinball simulator, the glasses simulates the pinballs POV.
